## 3. Errors, removed from your log

3a) **Wrong callsign or wrong serial number in QSO.** The number on the left side of the != sign is what you had in your log, the number on the right is what's in the other station's log.

2056Z:	20 C #1433	DH2URF		Not in Log

Lost: 9

**3d) Transfer errors in QTCs. The receiving station loses credit for a QTC which was not transferred correctly. The transmitting station loses credit if the QSO is not found in the log the way it was transmitted. We compare QTC group nr, time, callsign and serial number here. 'No match in existing log' maybe can mean, that a received QTC was transmitted to another station.**
